

Can I Ride

Polvo

I'll arrive though it takes me a while to get there
I'll wait around and seek my share
When we leave they'll put it there
The same thing's not there
You should've followed me somewhere to nowhere

The voices outside
Somebody's saying can I ride
Since you take them why don't you decide
I tell myself not to be surprised that I'm alive
I don't agree with you (something I don't understand)
Well I don't mind

All around us people explain what they want
And by the sound I can tell they care if I don't
Anyway I can see things are happening
Well all I know (more I can't understand)
It's not there

I'll arrive though it takes me a while to get there
I'll wait around and seek my share
When we leave they'll put it there
The same thing's not there
You followed me somewhere to nowhere
