

## Virtual Cold

Polvo

Rusty players who look the part  
Crystal stars and lucky hearts  
Anecdotes and collective sighs  
New admiration and graceful tries  
Even if real life is put on hold again  
We will find our strength in the virtual cold

My friend  
Sweet specter that comes on cue  
Modern myths that must be true  
Quick confessions that make good sense  
Share secrets in the future tense
