

Medicine Hat

Pond

Been walking in circles so long
My head is spinning, direction's gone
The night is darkest just before the dawn
So goodbye, my friend, it's time to move on

I'm taking some time to clear out my mind
Change up the light

Oh, why did I leave it so long?
Been drawn in and caught up in the drone
I guess I'm saying that this time I was wrong
Remembering is hardest when you're alone

Broken and cold, a speck of a man.
Well, I'm on my way to Medicine Hat
