

## sweet loretta

Pond

Sweet Loretta is gone to a place much better  
Right out in space where they can't even write you a letter  
Oh, my darling, I don't mean to sound so alarming  
Just say to your face that I find your grace disarming

Place on the island through the star despite of the weather  
Place on the island through the sun surrounded by whatever

Sweet Loretta, I suppose it's better  
That you're out in space free from my love forever  
Flying saucer, you came to the earth for the slaughter  
Why did you bother to bring such a beautiful daughter

Place on the island through the star despite of the weather  
Place on the island through the sun surrounded by whatever

Sweet Loretta is gone to a place much better  
Right out in space where they can't even write you a letter  
Oh, my darling, I don't mean to sound so alarming  
Just say to your face that I find your grace disarming

Place on the island through the star despite of the weather  
Place on the island through the sun surrounded by whatever
