

# The Paper Bride

Poni Hoax

It takes one to know one  
And I know that I've been had again  
It takes one to know one  
And I know that I've been frayed  
And you say you're sorry  
That someone came and stole your bike  
And I said don't worry  
But don't you go and take a hike  
It takes one to know one  
There's always someone on the prowl  
It takes one to know one

And you say you're sorry  
That we're all mindless animals  
And I said don't worry  
I have already read the bible

So stay with me  
Just stay with me  
So stay with me  
'Til tomorrow

It takes one to know one  
The week is long inside his arms  
It takes one to know one  
The love is filtered for the ashes of the shroud  
And you say you're sorry  
That someone came and stole your pride  
And I said don't worry  
We'll draw a shape side by side

So stay with me  
Just stay with me  
So stay with me  
'Til tomorrow

There is nothing more to say  
We will burn the paper bride today  
There is nothing more to say  
We will burn the paper bride today  
There is nothing more to say  
We will burn the paper bride today
