

Hero

Pop Evil

Yeeeaahh!
I'm barely breathin'
I'm barely alive
When did it all come tumbling down?
Your actions speak louder than all of the thunder
That you brought back down on me

I won't be, I won't be your hero (I won't be your hero)
I won't be your superman (I won't be your hero)
Everything I did was for you, everything you said was a lie
My pain, your gain, who's your hero today?
Who's your hero?

No more second chances
No more lies
This time you're going down
Your days are guilty, your nights are blind
I won't be the reason you fall this time

(Who's your hero?)
I won't be, I won't be your
I won't be, I won't be your hero!

Everything I did was for you, everything you said was a lie
My pain, your gain, who's your hero today?
Who's your hero?
Who's your hero?
