

Trenches

Pop Evil

No time to hide
I'm alive on the inside
Making up my mind on the front lines
Will I survive, will I survive another day?

This great divide
Side by side on the inside
Making up our minds on the front lines
Never again, never again will I be denied

'Cause here I come Here I come

I've waited all my life to get out of the trenches
I'm ready to fight for what I believe you can steal from me
I won't take this
Gonna fill these trenches

And stand up
Wake up,
I won't give up
'Cause here I come, here I come

Back and forth,
Stuck in a hole, damage control
Digging for rhymes on a secondhand cell phone
Will I survive, will I survive another year?

Still month to month
Paying my dues on the inside
Making up my mind on the outside
Never again, never again will I be denied

'Cause here I come Here I come

I've waited all my life to get out of the trenches
I'm ready to fight for what I believe you can steal from me
I won't take this
Gonna fill these trenches

And stand up
Wake up,
I won't give up
'Cause here I come, here I come

'Cause here I come, here I come
I've waited all my life to get out of the trenches
I'm ready to fight for what I believe you can steal from me
I won't take this
Gonna fill these trenches

And stand up
Wake up,
I won't give up
'Cause here I come, here I come

Stand up
Wake up

I won't give up
'Cause here I come, here I come
