

Never Never Love

Pop Levi

You hurt in my mind
and you burst in my soul.
You never never love, never never love
and each time I cry,
and my heart is so cold.
It's never never love, never never love.

Never never love love love,
Never never love love love
all the time.
Never never love love love,
Never never love love love
all the time.
Don't mind.

I've got to let you in
and I've got to get you out.
You never never love, never never love.
Thought once that i found
but my baby let me down.
I never never love, never never love

Never never love love love,
Never never love love love
all the time.
Never never love love love,
Never never love love love
all the time.
Don't mind.
Never never love love love,
Never never love love love
all the time.
Never never love love love,
Never never love love love
all the time.
Don't mind.

Calling you up from night til dawn.
Calling you up cause love is gone over me. (Wooh!)
Calling you up from night to dawn.
Calling you up cause love is all over me,
over me yeah, yeah babe.

You hurt in my mind
and you burst in my soul
you never never love, never never love
and each time I cry
and my heart is so cold,
it's never never love, never never love

Never never love love love,
Never never love love love
all the time.
Never never love love love,
Never never love love love
all the time.
Don't mind.

I wanna say it again!

Never never love love love,
Never never love love love
all the time.
Never never love love love,
Never never love love love
all the time.
Don't mind.
