

Nobody Loves Me Like I Love Myself

Popa Chubby

Come here, baby, lay down by my side,
the night is long, and it's cold outside,
don't touch me, baby, it won't satisfy,
just lay down low, till we say goodbye.

Nobody, nobody can love me like I love myself.

Hold on, darling, don't take off your dress,
don't use your name, use your sweet alias,
say you love me, say what's goin on,
but I won't be there, when the morning comes.

Nobody, nobody can love me like I love myself.
Nobody, nobody can love me like I love myself.

Tell me child, tell me what's your name,
forgive me now, but in the dark we all look the same,
loneliness, such an evil friend,
it's by your side, till the bitter end.

Nobody, nobody can love me like I love myself.
Nobody, nobody can love me like I love myself.
...can love me like I love myself.
...can love me like I love myself.
