

Sugar Cube

Porcelain and The Tramps

I'm looking to the life
The words falling out
the disco ball and there's snow on the ground
say "ohhh" I say "oh"
The sun shinning blind is whim
But only I know what it's right
Put a wish on the sky
say "ohhh" I say "oh"

I think about you
Can't dream without you
I always want more
Transe to the dance tune
under a full moon
And a reason to...

I think you know
Tonight Tonight
Gonna put you, face you, tease you show you
what I've been waiting for (yeah,yeah)
Sugar cube
Tonight Tonight
gonna make you, face you, pace you, shake you right now to dance floor

On the break down
On the break down

What comes up must come down
Tension on the ground and the place shut down
say "ohhh" I say "oh"
The time has come
Not a word, I'm not done
Stay up all night untill we see the sun
say "ohhh" I say "oh"

I think about you
Can't dream without you
I always want more
Transe to the dance tune
under a full moon
And a reason to...

I think you know
Tonight Tonight
Gonna put you, face you, tease you show you
what I've been waiting for (yeah,yeah)
Sugar cube
Tonight Tonight
gonna make you, face you, pace you, shake you right now to dance floor

Always wanting me to say
Always wanting me to say
You'll always want me
always want me

Sugar cube
Tonight Tonight

gonna make you, face you, pace you, shake you right now to dance floor

I think you know

Tonight Tonight

Gonna put you, face you, tease you show you

what I've been waiting for (yeah,yeah)

Sugar cube

Tonight Tonight

gonna make you, face you, pace you, shake you right now to dance floor
