

Last Chance to Evacuate Planet Earth Before It Is Recycled

Porcupine Tree

If you fall asleep with me
You can dream and drowse
The minutes turn to hours

We could climb a tree or two
And watch the sun go down
Upon our sleepy town

After all the time I spent with you
Summer went away
And we just weren't the same

It's just you and me alone
Not grown ups but not kids
You kissed me on the lips
