

# Last Chance to Evacuate Planet Earth Before It Is Recycled

Porcupine Tree

If you fall asleep with me  
You can dream and drowse  
The minutes turn to hours

We could climb a tree or two  
And watch the sun go down  
Upon our sleepy town

After all the time I spent with you  
Summer went away  
And we just weren't the same

It's just you and me alone  
Not grown ups but not kids  
You kissed me on the lips
