

Lightbulb Sun

Porcupine Tree

1. The sun is a light bulb
A candle's a treat
The curtains stay closed now
On my little retreat
And I'll only take medicine
If it's followed by sweets
A sickly pink liquid
That puts me to sleep

A Dsus2 C5 | A Dsus2 bB5

R: My head beats a better way
A Dsus2 bB5
Tomorrow a better day

2. And I can watch TV
While I'm wrapped up in bed
And mother makes sure that
I'm watered and fed
My best from school will
Come over and stare
At me in my bubble
Of germified air

R:

When I'm asleep the smoke fills me
I feel the heat, my illness leaves me

played fast

My head beats a better way
A Dsus2 bB5
Tomorrow a better day

When I'm asleep the smoke fills me
I feel the heat, my illness leaves me

The sun is a light bulb
A candle's a treat
The curtains stay closed now
On my little retreat

But after a while
The noise from the street
Is making me wish I
Was back on my feet
