

Lean into my side  
Never felt alive  
Call the chants inside  
(We will wait for this, we will wait for this)

Lean into my side  
Never felt alive  
Call the chants inside  
(We will wait for this, we will wait for this)

Lean into my side  
Never felt alive  
Call the chants inside

We will wait for this  
We will wait for this  
We will wait for this  
We will

Lean into my side  
Never felt alive  
Call the chants inside  
(We will wait for this, we will wait for this)

Lean into my side  
Never felt alive

We will wait for this  
We will wait for this  
We will wait for this  
We will wait for this

Lean into my side  
Never felt alive  
Call the chants inside

Lean into my side  
Never felt alive  
Call the chants inside  
You see right through me
