```
Lean into my side
Never felt alive
Call the chants inside
(We will wait for this, we will wait for this)
Lean into my side
Never felt alive
Call the chants inside
(We will wait for this, we will wait for this)
Lean into my side
Never felt alive
Call the chants inside
We will wait for this
We will wait for this
We will wait for this
We will
Lean into my side
Never felt alive
Call the chants inside
(We will wait for this, we will wait for this)
Lean into my side
Never felt alive
We will wait for this
Lean into my side
Never felt alive
Call the chants inside
Lean into my side
Never felt alive
Call the chants inside
You see right through me
```
