

Guns & Dogs

Portugal. The Man

We took a trip down in '87
We were looking for a place where we don't fear heaven
We got..got some guns, got some dogs
but just like them dogs, yeah the guns just get bigger

Looking to the town to show us what they got
take it to the cabin yeah we'll show ya what we got
we got space to do just what you please
if you never make it out

If I never stand on another corner trying hard to be a father
Let's be let's be love
If I never need again I'll find that sleep again
Let's be let's be love
took a trip out in '87
They were looking for a place where we don't need heaven

ooh
once you crawl in you'll never come back again
ooh
once you crawl in you'll never come back again

If I never stand on another corner trying hard to be a father
Let's be let's be love
If I never need again I'll find that sleep again
Let's be let's be love

Though I never pray god reigns today
Though I never pray god reigns today
Though I never pray god reigns today
Though I never pray god reigns today

if you catch us coming up about around the bend
if we step a little higher will we find it then
There's gotta be something roaming up about around the bend

ooh
once you crawl in you'll never come back again
ooh
once you crawl in you'll never come back again

Though I never pray god reigns today
Though I never pray god reigns today
Though I never pray god reigns today
