

Our Way

Portugal. The Man

But we found that we were always lost,
And we will never find our way.
But we found that we were always lost,
And we will never find our way.
But we found that we were always lost,
And we will never find our way.
But we found that we were always lost,
And we will never find our way.

But we found that we were always lost,
And we will never find our way.
But we found that we were always lost,
And we will never find our way.
But we found that we were always lost,
And we will never find our way.
But we found that we were always lost,
And we will never find our way.
