Surviving

Powderfinger

I'll stand at your shoulder
I'll keep you running right
Keep you running right
I'll fight in your corner
I'll stay by your side
I'll stay by your side

There's no need now to worry Our love's still here tomorrow

There aint no use in crying for whats keeping us divided Baby we're still trying, we're still trying

We're too old to worry About who's wrong and who is right Is's all so by and by People need a villain Someone to pay the price It keeps them satisfied

There's no need now to worry I'll still be here tomorrow

There aint no use in crying for whats keeping us divided Baby we're still trying, we're still trying

Baby we're still trying Baby we're surviving
