

## If I Die

### Power Of Dreams

I fall onto the floor  
With a bottle in my hand  
If I drunk anymore  
I could die

I'm comatosed but walking  
Between numbers that I like  
But now the well's run dry  
I'm going home

I said it I meant it  
Oh no I changed my mind again  
Again

What would you do if I die  
What would you do if I die  
What would you do if I die  
What would you do if I die

Everybody's addicted to something or other  
Everybody wants to get high

Take a final drop before you go home  
Take a final dream before you go

I said it I meant it  
Oh no I changed my mind again  
Again

What would you do if I die  
What would you do if I die  
What would you do if I die  
What would you do if I die

I said it I meant it  
I never felt this way before  
Before

What would you do if I die  
What would you do if I die  
What would you do if I die  
What would you do if I die
