

See You

Power Of Dreams

You're all I never had
You learnt me how to show emotion
You learnt me how to show my love
You've got to tell me where I'm wrong
You've got to tell me I'm not strong
I wish I could see you
I wish I could see you
I wish I could see you

Feeling so alone
Is something that I've tasted
Broke unto the bone
Another day I've wasted

You're all I ever wanted
You're all I never had
You learnt me how to show emotion
You learnt me how to show my love
You've got to tell me where I'm wrong
You've got to tell me I'm belong
I wish I could see you
I wish I could see you
I wish I could see you

You're all I ever wanted
You're all I ever wanted
You're all I ever wanted
You're all I never had
You've got to tell me where I'm wrong
You've got to tell me I'm not strong

(In our world the day is night) I wish I could see you
(And in our eyes it all seems right) I wish I could see
You
(I never wanted any more than you) I wish I could see
You
I wish I could see you

(In our world the day is night) I wish I could see you
(And in our eyes it all seems right) I wish I could see
You
(I never wanted any more than you) I wish I could see
You
I wish I could see you
