

# Hearts And Voices

## Power Quest

In a time of restlessness.  
We live in hate and fear  
Fighting for religion.  
As we face another year  
Murder breeding murder, a new morality  
Killing in the name of some immortal mystery.

For all eternity, we will stand as one  
Coming from the corners of the world

Raise your hearts and voices  
Raise your hearts and voices  
Raise your hearts and voices  
Now! (Raise them)

Raise your hearts and voices  
Raise your hearts and voices  
Raise your hearts and voices  
Now! (Raise them now)

Can you see the justice, the reason for this crime?  
Ain't no fight for freedom.  
Can we really be so blind?  
Brother stands with brother, don't need to be afraid  
We are all the children and we must not fade away

For all eternity, we will stand as one  
Coming from the corners of the world

Raise your hearts and voices  
Raise your hearts and voices  
Raise your hearts and voices  
Now! (Raise them)

Raise your hearts and voices  
Raise your hearts and voices  
Raise your hearts and voices  
Now! (Raise them now)

And we will find a way to stay together now  
And send a message cross the stars.

Raise your hearts and voices  
Raise your hearts and voices  
Raise your hearts and voices  
Now! (Raise them)

Raise your hearts and voices  
Raise your hearts and voices  
Raise your hearts and voices  
Now! (Raise them now)
