Sacrifice

Power Quest

I saw it in your eyes You left me paralysed Now I can't remember how I felt before Was it all in vain? Another losing game I can feel the fire that rages in my heart This ain't the time to be afraid You're not the only one who feels this way [Chorus:] Sacrifice - sacrifice my life To be with you tonight Sacrifice - nowhere left to hide I need you by my side Sacrifice - all the wrongs seem right Don't leave me here alone Sacrifice - steal away my soul I want you to know [Solo / Interlude] It's only you and me The way it's meant to be It was written long ago before we walked the earth I will depend on you For you to pull me through Climb the highest mountain to be right by your side [Chorus] [Solo / Interlude] This ain't the time to be afraid You're not the only one who feels this way

[Chorus]
