

# I Want To Kill You

Powerman 5000

Life is never what you want  
When all your ghosts have gone to haunt  
There's an echo here tonight  
You're not alone and it's alright  
But hold on

I want to kill you...  
And you want to kill me too

Wrap your hands around my neck  
It's what I need and should expect  
Don't hate the player, hate the game  
At least we know we feel the same  
So hold on  
I want to kill you...  
And you want to kill me too

Life is never what you want  
We all your ghosts have gone to haunt  
There's an echo here tonight  
You're not alone and it's alright  
But hold on

I want to kill you...  
And you want to kill me too
