

# Somewhere on the Other Side of Nowhere

Powerman 5000

Plug in your head shut off your mind.  
Let all your thoughts get redefined.  
Just keep yourself and disconnect.  
To where you been and have again.

Somewhere on the other side of nowhere  
That's where were going and you'll know when we get there  
Somewhere on the other side of nowhere  
That's where were going now

Electric dreams that electrify,  
Bombing lights and liquid skies,  
Robotic arms that radiate,  
Into the lives that they create

Somewhere on the other side of nowhere  
That's where were going and you'll know when we get there  
Somewhere on the other side of nowhere  
That's where were going now

Somewhere on the other side of nowhere  
That's where were going and you'll know when we get there  
Somewhere on the other side of nowhere  
That's where were going now

Maybe were not alone?

Plug in your head shut off your mind.  
Let all your thoughts get redefined.  
Just keep yourself and disconnect.  
To where you been and have again.

Somewhere on the other side of nowhere  
That's where were going and you'll know when we get there  
Somewhere on the other side of nowhere  
That's where were going now

Somewhere on the other side of nowhere  
That's where were going and you'll know when we get there  
Somewhere on the other side of nowhere  
That's where were going now
