

# Super Villain

Powerman 5000

You're dressin all in black  
From your front to your back  
And all your evil ways  
They seem to go on for days  
And as a matter of fact  
You got one more night before ya

Smash it up, burn it down  
Tearing up the underground  
You wanna live like a super villain  
Back in the line up  
Before your times up  
You wanna live like a super villain

There's nowhere to go  
There's nowhere to go

No one is savin this town  
Fuck all those pricks and those clowns  
I know you'd rather abuse  
Condem or slightly confuse  
Kick 'em all when their down  
And just for fun you're gonna

Smash it up, burn it down  
Tearing up the underground  
You wanna live like a super villain  
Back in the line up  
Before your times up  
You wanna live like a super villain

There's nowhere to go  
There's nowhere to go  
There's nowhere to go

There's nowhere to go when your on your own  
You don't care about what's wrong or what is right

Alright, alright  
You've been knockin down these doors, you've been filling up this room.  
You're been runnin round the place like your name was Dr. Doom  
You're a killer of culture, a vulture of style  
And it won't be that long before you end up on trial!

Smash it up, burn it down  
Tearing up the underground  
You wanna live like a super villain  
Back in the line up  
Before your times up  
You wanna live like a super villain  
Like a super villain  
Like a super villain  
Yeah  
Like a super villain

There's nowhere to go

Like a super villain  
There's nowhere to go  
Like a super villain
