

You're Gonna Love It, If You Like It Or Not

Powerman 5000

Everybody wants you and everyone needs
They're not really praying
But they're down on they're knees
They been looking for the answer
Looking for the prize
Looking for the things but they didn't realize

Well I know you know
This is what you want
And you know I know
This is how it starts
Well you can't let it go
No it's not up to you
I got in you control
And I'll tell you what to do

You're gonna love it...if you like it or not

Well I know you know
This is where it's at
And you know I know
You're never turning back
You're not addicted but
You're looking like you might
Be back tomorrow
And then every single night

You're gonna love it...if you like it or not
Well I know you know so come and get it!
Well I know you know you won't regret it!
Well I know you know it's all we got
Well I know you know it never stops

You're gonna love it...if you like it or not
You're gonna love it...if you like it or not
You want to go but it won't let you stop
You're gonna love it...if you like it or not
