

My baby don't try
My baby don't feel
Should I have you know
Should I have you know
Come follow me into the light
And you will see the fighter size
Come follow me into the night
And you will see the spider size
Come follow me into the war
And you can feel the bible montecore
Montecore
The tiger of doom
Come follow me into the light
And you will see the afterlife
Come follow me into the night
And you will see the tiger size
Come follow me into the war
And you can feel the bible montecore
Montecore
The tiger of doom
