

Nightcrawler

Powerwolf

Howling winds keep screaming round
And the rain comes pouring down
Doors are locked and bolted now
As the thing crawls into town

Straight out of hell One of a kind
Stalking his victim Don't look
behind you

Nightcrawler Beware the beast in black
Nightcrawler You know he's
coming back Nightcrawler

Sanctuary is being sought
Whispered prayers a last resort
Homing in its cry distorts
Terror struck they know they're caught

Straight out of hell One of a kind
Stalking his victim Don't look
behind you

Nightcrawler Beware the beast in black
Nightcrawler You know he's
coming back Nightcrawler

As night is falling The end is drawing near
They'll hear Their last rites
echo on the wind

Huddled in the cellar Fear caught in their eyes
Daring not to move or breathe
As the creature cries Fingernails start
scratching On the outside wall
Clawing at the windows Come to me it
calls Atmospheres electric
As it now descend the stairs

Hiding in the darkness Is so futile from its glare
Death comes in an instant
As they hoped it would Souls ascend to heaven
While it feasts on flesh and blood

Straight out of hell One of a kind
Stalking his victim Don't look
behind you

Nightcrawler Beware the beast in black
Nightcrawler You know he's
coming back Nightcrawler Beware the beast in black
Nightcrawler You know he's coming back
Nightcrawler
