

## Nightside of Siberia

Powerwolf

Find a trail of war and darkness  
In the night when they made us all believe  
On the way to fate and Gloria  
And we never found retreat  
Curse the demons in the fortress  
When to fight and to force them on their knees  
For the life we pay euphoria  
Lead a life, too late to flee

Fire before the enemies can see  
Fire before the morning  
Fire without a warning you will bleed  
Tonight we still on it

Nightside of Siberia, Siberia  
And the morning's far  
Nightside of Siberia, Siberia  
And the morning's far

First we take them into moonlight  
Then we light up a pyre in the maze  
And aboard the flight to eschaton  
May the father lead our way  
Born to suffer life, immortal  
Caught and damned for a light we'll never see  
Led astray beyond euphoria  
And betrayed as all who pray

Fire before the enemies can see  
Fire before the morning  
Fire without a warning you will bleed  
Tonight we still on it

Fire before the enemies can see  
Fire before the morning  
Fire without a warning you will bleed  
Tonight we still on it

Nightside of Siberia, Siberia  
And the morning's far  
Nightside of Siberia, Siberia  
And the morning's far
