

Children of the Future

Powerworld

Verse 1

We rotate in our lost generation.
We never saw the signs above us in the sky.
In a life with public isolation,
we leave the right way in believing all these lies.

Chorus

Die another day,
better think about tomorrow.
The price that we will pay,
for the children of the future.

Verse 2

Break it down like you are working your tuition.
Take the floor, bring changes, dont you hesitate.
In our minds is space for a better education,
we should not only trust in our faith.

Chorus

Die another day,
better think about tomorrow.
The price that we will pay,
for the children of the future.

Repeat

Bridge

Children of the future,
of the future.

Solo

Die for the future.

Chorus

Die another day,
better think about tomorrow.
The price that we will pay,
for the children of the future.

Repeat

Die another day.

Die another day.

Die, die another day.
