

King for a Day

Powerworld

Verse 1

I await the dusk on a silent street.
My mission is clear and Im ready to complete.
I'm thunder and lightning, cause I make the change.
I try to place my arms in an apposite range.

Pre-chorus

All I want to do.
All I want to say, to shoot my pain away.

Chorus

To be king for a day, I don't need it.
I don't want to have to make the choice.
To be King for a day my illusion.
To only dream I have the peoples voice.

Verse 2

One guilty man is liable to any other victim.
A single person who is slating his might.
Another man who knows what's good and what's right,
he can deliver with a nation over night.

Pre-chorus

All I want to do.
All I want to say, to shoot my pain away.

Chorus

To be king for a day, I don't need it.
I don't want to have to make the choice.
To be King for a day my illusion.
To only dream I have the peoples voice.

Bridge

Stand up and listen, I've got something to say.
We got to do it my way.
Stand up and shout, and open your eyes.
Cos it's no surprise.

Solo

Chorus

To be king for a day, I don't need it.
I don't want to have to make the choice.
To be King for a day my illusion.
To only dream I have the peoples voice.
