

## Chalice Of Repentance

### Prayer For Cleansing

Springtime of sorrow, make love last until the heart is dead  
Frost on cracked glass, bleaching purity  
Ride angels' wings into heaven, naked flesh a sick sight  
Vomit into hair of sweat, feed myself on the lust of humanity  
Devour orgasms of blood

Singing an ode of selfishness  
Into a sea, putrid recognizance  
A stench of sex so strong, taste it on my tongue  
Sweet poison caressing taste buds until death

Decay - corrode from the inside out  
Rot, melt away - the coating of security

Now and forever, burns numbers in my head  
Cum to my senses, turn back the clock thrice

Realization of desperation  
Suffer virgin flesh, suffer loneliness  
Together rode the wings of demons right into hell
