My love and I, we work well together But often we're apart Absence makes the heart lose weight, yeah, Till love breaks down, love breaks down

Oh my, oh my, have you seen the weather The sweet September rain Rain on me like no other Until I drown, until I drown

When love breaks down
The things you do
To stop the truth from hurting you

When love breaks down
The lies we tell,
They only serve to fool ourselves,
When love breaks down
The things you do
To stop the truth from hurting you

When love breaks down, when love breaks down

My love and I, we are boxing clever She'll never crowd me out Fall be free as old confetti And paint the town, paint the town When love breaks down The things you do To stop the truth from hurtin' you When love breaks down The lies we tell, They only serve to fool ourselves, When love breaks down The things you do To stop the truth from hurtin' you When love breaks down The lies we tell, They only serve to fool ourselves, When love breaks down The things you do To stop the truth from hurting you When love breaks down You join the wrecks Who leave their hearts for easy sex When love breaks down When love breaks down
