

# We Love To Entertain You

## Preluders

Take a moment  
catch the spirit  
feel the smile from deep inside  
get the magic  
meet the people  
who will join your laugh and cry  
full of passion  
we're believers  
from the day that we are born

you've got to feel it  
feel and believe it  
believe in this feeling

we love to entertain you  
we love to play the game  
we love to entertain you  
we let you feel the same  
entertain you

we are searching  
like we're crazy  
and you know we can't go wrong  
in the morning  
every evening  
holding on before it's gone  
'till we get to  
this feeling  
the power grow strong

entertain you  
entertain you  
we love  
we love  
we love to entertain you
