

Angels Sing

Press Play

You see, see in me what I can't see
Believe in me in my unbelief
Strengthen me when I'm so weak
You know I love you
And you light the corners of darkness in my life
You answer when no one can hear my
Cry for my rescue
The clouds open up and my world sees a savior

And you make the angels stand and sing
You make heavenly melodies
You make my life forever free
You know I love you
You know I love you
You make everything wonderful
You make each day more beautiful
You make life unbelievable
You know I love you
You know I love you

You love, love me when I'm broken
Heal my heart when I'm wounded
You breathe mercy unspoken
Cause you know I love you
And you are beside me through every sorrow
Stand with me on every mountain
We are in wonder
Awaken our hearts Lord as we sing your praises, and

Angels will bow at your feet as they worship
Heavens will open the gates show their splendor
The earth starts to rumble our loved ones we welcome
Trumpets will thunder my world sees a savior
