Press Play

You, you make everything alright
You, you know you make me feel alive
You, you're with me through those ups and downs
You turn it around
You you, you, you, oh I really love you

I give my love to you
I give my love to you
I love the things you do
I'm so in love, so in love, so in love with you

You, I cant get you outta my mind
You, you're such a supernatural high
You you, make me wanna scream and shout
You turn me inside out
You you,you,you, oh I really love you
Say Say-

You turn me inside out
You turn my world around
Its me you love you do
You know you do, You know you do
When I think of all the times you held me up
Going the extra mile just to show your love
Not a moment you weren't there beside me
So I'm proud to say you're the one for me

I wanna say say
All I want is you, you, you
Shout it out, Hey! Yeah!
You're everything
