

# When Will I See You

The Pretenders

When the days  
are getting longer  
and the people  
come out on the streets at night  
I'll be among  
the starry eyes  
I'll be among  
the wishful sighs  
I'll be among  
the fools, forever fantasizing

When will I see you?  
summertime would be perfect  
When will I see you?  
could be a long summertime  
When will I see you?  
endless nights of love could be ours  
When will I see you?

When the nights  
are getting warmer  
and the dawn comes in on the wings of a song  
I'll be among  
the hopeful few  
I'll be among  
the morning dew  
I'll be among  
everything new

When will I see you?  
summertime would be perfect  
When will I see you?  
there'll be no-one around  
When will I see you?  
endless nights of love could be ours  
When will I see you?

Demand the impossible!  
everyone will be free  
We'll walk down the Avenue  
Openly - openly

When the days  
are getting longer  
and the people  
come out on the streets at night  
I'll be the one  
who knows your name  
I'll be the one  
who plays the game  
I'll be the one  
again and again and again  
again and again and again, asking

When will I see you?  
summertime would be just perfect  
When will I see you?

could be a long summertime  
When will I see you?  
endless nights of love could be ours  
When will I see you?

Demand the impossible!  
Everyone will be free
