

Another Day (In The Death Of America)

Pretty Boy Floyd

Another day in America
Another day in America
Another day in America
Just another day in the death of America

Out here in the west U.S.
I know It's the best
I strut my stuff
Cuz I've always passed the test
Cuz I've seen a million fail
Left with their tails between their legs
Oh yeah

String me up I'll never fall down
I'll look that gun right down the barrel
So set your sights on me

Another day in America
Another day in America
Another day in America
Just another day in the death of America

We're still out here in the west U.S.
I know it's the best
I strut my stuff
Cuz I've always passed the test
Cuz I've seen a million fail
Left with their tails between their legs
Oh yeah

Another day in America
Another day in America
Another day in America
Just another day in the death of America
