

# Saturday Night

Pretty Boy Floyd

Yeah, well it's Saturday night  
And it's your right to party

It's Saturday and school's out, the week is done  
No one's gonna stop us cause we've just begun  
C'mon, it's time to take a chance  
Well call up all your friends back in your hometown  
Get 'em on the line and scream out loud  
C'mon, don't let 'em hold you back  
Oh yeah yeah

It don't matter where you are  
Well who says you've gone too far  
They don't know what it's all about, no no no

It's Saturday night  
And it's your right to party - Party  
It's Saturday night  
And it's your right to party  
Well you've done everything that you been told  
Now it's your time to take control  
C'mon, it's time to kick some ass  
Waited all week for the week to end  
Now it's your time to rage again  
C'mon, make every minute last, oh yeah yeah

It doesn't matter where you are  
Well who says you've gone too far  
They don't know what it's all about, no no no

No matter who says what, when, where or how  
Never listen to it 'cause I'm tellin' you now

Let's Go

C'mon

It's Saturday night  
And it's your right to party - I said party  
It's Saturday night  
And it's alright to party  
Yeah  
Alright

No matter who says what, when, where or how  
Never listen to it 'cause I'm tellin' you now

It's Saturday night  
And it's your right  
It's Saturday night  
Well let's party

Oh yeah  
Alright
