

Breathless

Pretty Maids

Well sense you've be gone
Walked out of my life
It's been a misery
You're all that I want
And woman I'd die for your company

Baby you're no less
Than miles above the rest

Girl you leave me breathless
You're so precious
Give me reason
To believe in
There'll be a place in your heart
Girl you leave me breathless
My little goddess
Want you near me
Can your hear me
Don't tear my whole world apart

The love that we shared
The moments we had
Feels like yesterday
Your mystical eyes
The physical ties
Yet seems so far away

Girl how do I cope
Without you there ain't no hope

Girl you leave me breathless
You're so precious
Give me reason
To believe in
There'll be a place in your heart
Girl you leave me breathless
My little goddess
Want you near me
Can your hear me
Don't tear my whole world apart (3x)
