

Cielo Drive

Pretty Maids

Out in the desert summer 1969
A crazy vision in a psychopathic mind
Out of the desert rides the devil's concubines
To do the devil's business, helter skelter time

Pure evil in disguise
Approaching paradise

On through the canyon rides out Charlie's hell patrol
The disciples of death are out to take their toll
The piggies will be slain up on the mountain side
Sharon the angel's gonna get her wings tonight

And death to innocence
Won't see the sun again

Acid intoxicated hippies on a killing spree tonight
The knives are flashing as the darkness steal away the light
Ritual atrocity underneath the California sky
Hell, tonight
No one left alive on Cielo drive

The shocks are spreading through the L.A. hills at dawn
In pain and agony the world is left to mourn

No mercy no remorse
Evil has made it's course

Acid intoxicated hippies on a killing spree tonight
The knives are flashing as the darkness steal away the light
Ritual atrocity underneath the California sky
Hell, tonight
No one left alive on Cielo drive
