

Mother Of All Lies

Pretty Maids

State of the nation is at play
We'll keep the crisis bad at bay
We'll bring you growth and prosperity
Restore financial stability
And then they tax you to your knees

Can't you see
They are twisting our reality
Never practice what they preach
I'm tellin you
We're witnessing the mother of all lies
Powerwhore's and presidents
Breaking down our confidence
Fooled again
We're witnessing the mother of all lies

We'll shape the perfect world design
Reduce the unemployment lines
Secure the rights for minorities
Your health will be our priority
Then leave you dying in the streets

Can't you see
They are twisting our reality
Never practice what they preach
I'm tellin you
We're witnessing the mother of all lies
Powerwhore's and presidents
Breaking down our confidence
Fooled again
We're witnessing the mother of all lies

Stand up to the truth
Your thoughts are disillusioned
We're fed up, we're full
Don't need your bull, no more
Fed up we're full
We won't take anymore

Can't you see
They are twisting our reality
Never practice what they preach
I'm tellin you
We're witnessing the mother of all lies
Powerwhore's and presidents
Breaking down our confidence
Fooled again
We're witnessing the mother of all lies
