

# Nowhere to Run

Pretty Maids

Running around the corridors  
Blood on the walls  
Blood on the floors  
And your brain is full of fear  
Evil laughs and dreadful cries  
Nowhere to run nowhere to hide  
Seems like death is standing near

Chorus:

Nowhere to run  
Nowhere to run  
What the hell is going on

There's killer behind you back  
Just waiting for attack  
And your heart is beating fast  
Your body's shaking, you're going insane  
Something's going on in your brain  
Death will overtake you at last

Chorus

The night is over, the dawn is breaking  
All night long you have been waiting  
It's cleaning up inside your head  
You think you're safe, you're feeling high  
But you're wrong I'll tell you why  
Nobody escapes the castle of death

Chorus
