

Pandemonium

Pretty Maids

Heading down the wrong track
Yet another set back
Living is a death trap

Generation heedless
String up a bad mess
demolition madness

Lost forever all together we fall

Prophecies unfolding
The fireball is rolling
Another promise broken

As the clock is ticking faster
Mayhem and disaster
And chaos ever after

Lost forever all together we fall

Sweet Mother Earth mankind come undone
Enemies of reality
Planet panic Pandemonium
Killing you, killing me

Critical condition
Man without a vision
No qualified decisions

Mayday mayday mayday show me leadership
A sea of lies empty words and politics
Crashed dreams mad world sick of it

Lost forever all together we fall
