## **Tortured Spirit**

## **Pretty Maids**

There's something deep within I can't get rid of it Something inside me causing horror in my head I'm a stranger to myself Don't know what I'm doing Know what I'm doing

Tortured spirit haunting me Playing with my sanity Taking over steal my soul I'm in a mental stranglehold

Don't want to share myself with you or someone else What kind are you to split my mind and bend my will Just get out of my life Now why don't you leave me why don't you free me

## Chorus

And when my better part has gone My alter ego still lives on we're two persons in one I can't break the bonds

Tortured spirit haunting me Playing with my sanity Taking over steal my soul I'm in a mental stranglehold Tortured spirit leave me be Now tell me what you want from me Taking over steal my soul Tortured spirit don't do it oh no
