

# Wasted

Pretty Maids

So here we stand like  
Despondent refugees  
Our love has stranded like a  
Ship to shore  
What's nothing to you still  
Means everything to me  
And the final words cut me  
To the core

If it's over  
Then it's over

If all the time we had was wasted  
If all the love we had is lost  
If all the purity  
We had for you and me  
Is wasted

Though I found heaven  
In the sparkle from your eyes  
Felt like king for a day  
But I was a fool for the night  
And since you left me  
With all the wreckage from the past  
The bitterness somehow  
Always seems to last

If all the time we had was wasted  
If all the love we had is lost  
If all the purity  
We had for you and me  
Is wasted

I got to face it babe  
The magic has gone  
i have to clean the slate  
Its over and done, I know

If all the time we had was wasted  
If all the love we had is lost  
If all the purity  
We had for you and me  
Is wasted
