

## Delivering the Black

Primal Fear

The night was so black as we planned to attack  
Like a bullet in the dark  
I rock and roll grieve and electric guitar  
Till the devil stopped.  
Nothing to lose, and nothing to prove  
Standing here side by side in the rain  
Trading our soul and taking your toll  
About way to the promise land.  
We work with the devil.  
We're delivering the black.  
We run the next level.  
We're delivering the black.  
Our hearts full of vengeance, flesh in the air.  
The rock and roll head to head.  
Made a deal with the devil for forging the fame  
And riding the dragon's head.  
Nothing to lose, and nothing to prove  
standing here side by side in the rain.  
Trading our soul and taking your toll  
About way to the promise land.  
We work with the devil.  
We're delivering the black.  
We run the next level.  
We're delivering the black.  
Just one more dream like a black symphony  
Fighter of flames to rock the world  
Twenty years later and nothing has changed  
And that's still want to on my back.  
We work with the devil.  
We're delivering the black.  
We run the next level.  
We're delivering the black.
