

# Diabolus

## Primal Fear

I'm at the darkest side of life  
I've crossed the demons paradise  
I've seen the fallen angels eyes  
Some call this state insanity  
It's just as dark as it can be  
There's no way out I won't be free

Can someone hear my call?  
Come and help me through it all  
Can you ease the pain?  
So my life won't be in vein

I'm heading to the stars  
But the road won't lead no longer  
Up to the sunrise it won't heal  
The liberty seems far away  
Can't find the way  
The vision won't be clearer  
I see blood on my hands  
No more footprints in the sand  
Diabolus

All through my life is close to hell  
I know my crime, I know it well  
There's no regret for me to tell  
I'm lost inside my misery  
I've prayed to god to set me free  
But there's a darker voice inside of me

Can someone hear my call?  
Come and help me through it all  
Can you ease the pain?  
So my life won't be in vein

I'm heading to the stars  
But the road won't lead no longer  
Up to the sunrise it won't heal  
The liberty seems far away  
Can't find the way  
The vision won't be clearer  
I see blood on my hands  
No more footprints in the sand  
Diabolus

Unleash me from my chains - who am I?  
I'm a slave under my own failures  
I'm a sinner that lives in a lie  
I've been down to the deepest valley  
Who am I? - Help me!

Unleash me from these chains  
Release me from this pain  
I'm lost in misery  
Oh god please set me free
