## Rollercoaster

## **Primal Fear**

Swimming in a pool of sharks Diving in a sea of snakes Oh, I'm going insane

The needle still injects my blood A blazing pain, a burning flood I'm nailed to the cross

Consequences melting down reality My face turns black, I'm off the radar screen

Inside of a demon - he said: burn, burn The mind of a devil - like a rollercoaster Inside of a demon - he said: burn, burn, burn In need of an angel to protect me from myself

Standing in the line of fire Running through the fields of war When my hope's been stolen now

Please help me
Mend my broken wings
I have no hope,
But still believe
before I lose my faith

No evidence remains, When I will fly away I've disappeared, I'm off the radar screen

Inside of a demon - he said: burn, burn, burn The mind of a devil - like a rollercoaster Inside of a demon - he said: burn, burn, burn In need of an angel to protect me from myself
