

# Strike

## Primal Fear

I've seen the lightning  
Can't wait for the thunder to roar  
This is my battle  
For honor and glory will soar

Afraid of my name  
They shatter with pain  
The army of horror  
Is getting them all

Strike - and take no prisoners  
Strike - holier than thou  
Strike - without exception  
Strike - holier than thou

With hate and anger  
We're standing to counter revenge  
There is no mercy  
Consistently in every sense

Opponents beware  
There's nothing to share  
Afraid of my name  
You'll shatter with pain

Strike - and take no prisoners  
Strike - holier than thou  
Strike - without exception  
Strike - holier than thou

Invasion rolls  
We're taking all over  
With heart and soul  
We'll stand our man

Strike - and take no prisoners  
Strike - holier than thou  
Strike - without exception  
Strike - holier than thou
